

FULL SYNTHETIC dexos1™

APPROVED

5W-30 Motor Oil

The new gasoline engine motor oil specification from General Motors... Licensed dexos1™ is required for warranty and performance for all 2011 and future GM vehicles. And, GM now specifies dexos1™ exclusively for 2010 and earlier GM vehicles, including Corvette and Cadillac.

Super S dexos1™ Full Synthetic formulation uses the most advanced additive technology available, *newly* developed to meet the fuel economy standards of both the dexos1™ and ILSAC GF-5 specifications, **while exceeding the dexos1™ specification** (which is more stringent than the GF-5 specification) in areas such as weighted piston deposits, wear control, seal and emission system compatibility, cleanliness (sludge, varnish and deposits), shear stability and oxidation control.

Here's what GM says about dexos1™:

All 2011 are required to have this lubrication installed or it will void warranty on related repairs. dexos1™ is a new and more stringent specification that exceeds GF-4/API SM and the new ILSAC GF-5/API-SN-RC classification. dexos1™ is factory fill and service fill in all GM gasoline engine vehicles. dexos1™ supersedes the GM6094M, GM4718M and GM-LL-A-025 specifications for 2010 and older GM vehicles and is now the only motor oil GM recommends for those vehicles.

*GM's brand of dexos1™ is a **synthetic blend**, not a full synthetic. It has improved viscometric properties, creating less friction in the engine which contributes to improved fuel economy. It resists aeration, which enables fuel-saving devices, such as Variable Valve Timing, to work optimally. It offers improved oxidation and deposit-forming tendencies allowing emission systems to operate longer and optimally, and resists degradation between oil changes, extending the time and mileage interval between oil changes.*

license No.: RB1A0924016

In addition to the benefits GM claims, Super S dexos1™ is a full synthetic formulation, licensed and approved by GM, that provides the ultimate in performance and protection. You get:

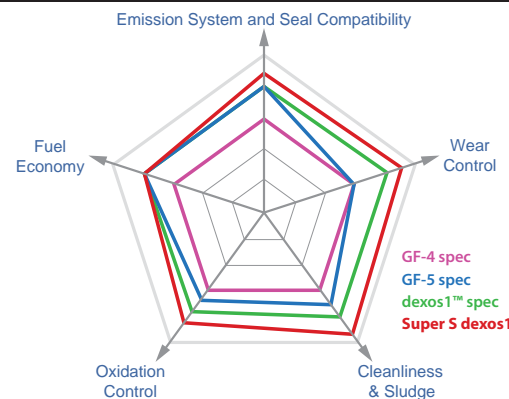

- Advanced viscosity control and shear stability - maintains performance in the harshest conditions and extends oil drain intervals
- Lowest levels of weighted piston deposits - far exceeding industry specs
- Highest level of high temperature deposit control
- Wear protection so advanced it is measured in atoms per hour
- Most advanced protection against varnish, corrosion, sludge, and foaming to prolong the life of your engine
- Highest established levels of fuel economy
- Extremely low volatility, which reduces oil consumption
- **Licensed and Approved for GM Warranty Service - the only fluid GM now recommends for service of GM gas engine vehicles - all years and models**
- **API licensed for service on all vehicles calling for ILSAC GF-5/ API SN or previous**

Super S dexos1™ is manufactured to Advanced Quality Assurance Standards. Every batch goes through rigorous testing in Smitty's laboratory (one of the most well equipped in the industry) , from raw materials to finished product, to insure you're getting the Best Protection and Highest Performance from every quart.

Super S dexos 1™: 12/1 Qt - SUS 793 3/5 Qt - SUS 79305
55 Gal Drum - SUS 793-55 Bulk - SUS 793BULK

Repeated testing shows Super S dexos1™ demonstrates among the lowest rates of wear in the industry.

Super S dexos1™ Performance Relative to GF-4, GF-5 & dexos1™ Specifications

The red line shows where Super S dexos1™ outperforms the new ILSAC GF-5 spec and the GM dexos1™ spec.

We Are Committed To Quality...

Certificate of License

issued to

Smitty's Supply Incorporated

This document certifies that the company named above is authorized to use the General Motors **dexos1**™ trademark in conjunction with the fluid specified below:

License No.:	RB1A0924016	Expiration Date:	December 31, 2011
Formulation Code:	NA	Product Code:	NA
Viscosity Grade:	5W-30	Marketing Name(s):	Super S dexos1™

This fluid has met the rigorous quality requirements for **dexos1**™ engine oil. The company named above has agreed to maintain the terms of and comply with the quality standards set forth in the **dexos**™ Licensing Program Policies and Procedures and Licensing Agreement. The license number and a date code within the expiration date shown above must appear on all container labels of licensed product.

Should there be any questions regarding this license, please contact the Center For Quality Assurance, administrator of the **dexos**™ Licensing Program:
