

HEAVY DUTY

OIL STABILIZER

- Improves Oil Viscosity
- Protects Against Rust, Corrosion & Dry Start
- Extends Engine Life

SuperS® Heavy Duty Oil Stabilizer when added to engine oil, is a high efficiency lubricant that will improve engine performance.

- Coats engine parts with a tough, slippery film that resists heat and pressure
- Keeps vital engine parts clean
- Improves Oil Viscosity
- Extends engine life
- Stops engine smoking
- Dramatically reduces exhaust smoke

DIRECTIONS: Add 20% of system capacity. Add up to 60% or more of system capacity for worn engines. Can be added between oil changes to fortify and improve oil. Can be used in all cars, trucks, boats and motorcycles; gas or diesel fueled. Do not overfill crankcase.

CAUTION: Do not ingest. If this should occur, drink large volumes of water and seek medical attention. Avoid contact with skin and eyes.

KEEP OUT OF REACH OF CHILDREN.
