

Custom Plus™ Non-Detergent Motor Oil

CustomPlus™ Non-Detergent Motor Oil are blended from well refined petroleum base oils and may be used in older, worn engines with high oil consumption. Non-detergent engine oils are not suitable for use in later model automobiles, but can serve as an excellent general lubricant in non-critical, low pressure applications

Features/ Benefits

- Well refined mineral oils with no added additives
- Available in 3 viscosity grades
- Mono grade formulations

Applications

- Engines calling for API SA or SB performance level engine oils
- API GL-1 Gear Applications
- Older engines
- Engines with high oil consumption
- Non critical low pressure hydraulicsystems
- Drip oilers, spindle lubrication, once thru applications
- Light duty compressors

RECOMMENDATIONS/SPECIFICATIONS

Recommended for applications calling for
 API SA, SB
 API GI-1

Caution: This oil is rated API SA, SB and is not suitable for use in most gasoline powered automotive engines built after 1951, use in more modern engines may cause unsatisfactory performance or harm of equipment. Use the same care and handling that you would use with petroleum products.

Typical Characteristics

Super S® Non-Detergent Motor Oil				
Property	Test Method ASTM -D	SAE Viscosity Grade		
SAE Viscosity Grade		30	40	50
Viscosity @ 100°c	D445	10	13.5	19
VI	2270	>50	>50	>50

Typical test data are average values only.
 Minor variations which do not affect product performance are to be expected during normal manufacturing.
