

Super S[®] 303 Tractor Hydraulic Fluid

Technical Product Information

Super S 303 Tractor Hydraulic Fluid is a general purpose hydraulic fluid designed to provide general lubrication in agricultural applications. It is a multi-functional fluid used as a hydraulic medium or as a general lubricating fluid in non-critical applications.

FEATURES/ BENEFITS

- Good general purpose lubrication
- Suitable for agricultural applications
- Contains anti-wear additives

APPLICATIONS

Super S 303 Tractor Hydraulic Fluid is designed for use as a general purpose agricultural lubricant.

Suitable for use in agricultural applications requiring use of a SAE 20 oil.

Super S [®] 303 Tractor Hydraulic Fluid		
Properties	Test Method	Data
SAE Grade		20
Gravity, °API	129	30
Flash Point	92	204/400
Pour Point	97	-17/0
Color	150	6 max.
Viscosity cSt @ 40°C	445	40-68
Viscosity Index	227	61 min.

Special handling, notices or warnings

Use the same care and handling as with any petroleum product.
