

# Super S<sup>®</sup> Honda/Acura Power Steering Fluid

**Super S<sup>®</sup> Honda/Acura Power Steering Fluid** is a premium synthetic power steering fluid specially formulated to meet the stringent requirements of Honda/Acura which require use of a technologically advanced fluid with more anti-wear protection, higher viscosity, and improved seal compatibility.

**Super S<sup>®</sup> Honda/Acura Power Steering Fluid** is backwards compatible with older Honda/Acura power steering systems. Universal power steering fluids do not provide the necessary protection for use in Honda/Acura power steering systems model years 2007 and newer and may lead to seal or pump failure.

## FEATURES/ BENEFITS

- Exceptional Anti-Wear Properties
- Robust anti-oxidant system that prevents sludge formation
- Unmatched protection and performance in cold climates
- Anti-foam agents prevent pump cavitation and eliminate oxidative corrosion

## APPLICATIONS

- Suitable for use in Honda/Acura P/N 08206-9002A, Honda PSF-2, PSF-S, and PSF-V systems

## DIRECTIONS

Add to reservoir to meet factory recommended level

## TYPICAL CHARACTERISTICS

Super S <sup>®</sup> Honda/Acura Power Steering Fluid		
Properties	Test Method ASTM D-	Data
Pour Point °C/°F,	93	-40/-40
Flash Point °C/°F,	92	225/437
Density (lb/gal)		7.47
Color	1500	1.5
Viscosity	445	
cSt @ 40°C		56
cSt @ 100°C		12.6

Typical test data are average values only.

Minor variations which do not affect product performance are to be expected during normal manufacturing.

## SPECIAL HANDLING, NOTICES OR WARNINGS

Handle as you would any petroleum product
