**Super S Fleet Antifreeze/Coolant**

*Super S Fleet Antifreeze/Coolant* is a diesel specific product designed for heavy duty cooling system applications. For many years, heavy duty operators were limited to low silicate automotive formulations requiring a separate Supplemental Coolant Additive (SCA). While this was effective, it resulted in mixing errors when the SCA was added at initial fill and top off. *Super S Fleet Antifreeze/Coolant* is pre-charged with SCAs to eliminate mixing errors.

*Super S 50/50 Fleet Antifreeze/Coolant* is a 50/50 volume mixture of the Fleet Antifreeze/Coolant with deionized water.

Both of these products contain bitterants for child and animal protection.

**FEATURES/ BENEFITS**

- Low silicate formulation provides aluminum compatibility for use in mixed fleet, gasoline and diesel applications.
- Pre-charged with high quality SCA
- Amine and phosphate free
- Formulated to protect cylinder liners from pitting in heavy duty applications
- Compatible with other traditional fully formulated coolants
- Compatible with standard heavy duty SCA coolant filters
- Contains bitterant for animal and child protection

**APPLICATIONS**

*Super S Fleet Antifreeze/Coolant* is a fully formulated engine coolant suitable for heavy duty gasoline and diesel engines found in on-road, off-road, marine, farm, mining and construction equipment. It provides optimum protection against freezing, boiling over, cavitation erosion, corrosion, and scaling for all heavy-duty cooling system applications. Because it is SCA pre-charged, Fleet Antifreeze requires no SCA at initial fill, and ensures proper chemistry at every top-off. It is recommended in diesel applications that the coolant be checked and SCAs replenished to comply with the engine OEM recommendations.

**RECOMMENDATIONS OR APPROVALS/ LICENSES**

*Super S Fleet Antifreeze/Coolant* and *Fleet 50/50 Antifreeze/Coolant* have been formulated to meet the following coolant specifications:

- ASTM D3306, D4985, D6210
- AS/NZS 2108.1: 1997 "Type A"
- Caterpillar EC-1
- Cummins Bulletin 3666132
- Detroit Diesel 7SE298 ; 93K217
- Daimler Chrysler MS7170
- Ford ESE-M97B44-A, ESE-M97B18-C
- Freightliner 48-22880
- General Motors 1825M, 1899M
- John Deere HD 24
- International (IT&E) CEMS B-1
- Kenworth RO26-170-97
- Mack Truck
- New Holland WSN-M97B18-D
- PACCAR
- Peterbilt 8502.002
- SAE J1034, J1941
- TMC RP 329
- Scania 6901
- Volvo Heavy Truck
TECHNICAL PRODUCT INFORMATION

SPECIAL HANDLING, NOTICES OR WARNINGS
Take precautions when handling all chemicals. Specifically, the work place must be well ventilated, the skin protected safety glasses worn at all times. Avoid skin contact. These products contain bitterant, which reduces the chance of accidental ingestion. The products are based on monoethylene glycol and should be kept away from children and animals to prevent exposure.

**Super S Fleet Antifreeze/Coolant** has an approximate shelf life of 24 months without agitation. Concentrate product should be mixed prior to use. Always dispose of coolant in accordance with local, state and federal guidelines. These products are not to be used to protect the inside of portable water systems against freezing.
