

# Super S<sup>®</sup> Fuel Injector Treatment

**Super S<sup>®</sup> Fuel Injector Treatment** uses the latest technology in gasoline detergency and cleaning systems to remove gum and varnish in carburetors and fuel injectors. It uses a special blend of patented Mannich Technology detergents and synthetic carrier fluids which are specifically formulated to eliminate harmful intake deposits that affect engine performance and protect engine components during extreme cold temperatures.

**Super S<sup>®</sup> Fuel Injector Treatment** improves octane number, injector function, water dispersion, CO<sub>2</sub> emissions, fuel economy and stability, and fuel flow in cold weather. The chlorine free, non-alcoholic chemistry removes carbon, gum, and varnish without the use of alcohols or glycol ethers which can damage fuel system components. Ethanol in gasoline along with water contamination combine to promote corrosion and carbon buildup. Super S<sup>®</sup> Fuel Injector Treatment removes these deposits and forms a protective layer to prevent future buildup.

## DOSAGE INSTRUCTIONS

- Each bottle treats up to 20 gallons of fuel
- 3 oz for every 5 gallons of fuel
- Add a full bottle to gas tank before fill-up
- May be added to fuel containers to protect fuel during long term storage.

## APPLICATIONS

- Cleans fuel system as you drive
- Use on a regular basis to keep fuel system clean
- Each bottle treats up to 20 gallons

## PRODUCT NUMBERS

SUS S113          12/12 oz bottles

**Super S Lubricants**

November 12, 2018

## FEATURES/ BENEFITS

- Dissolves gum and varnish
- Restores lost power
- May increase octane number by up to 3 points
- Protects against corrosion through out the engine
- Contains no alcohol
- Can help reduce emissions
- Will not harm catalytic converters or oxygen sensors
- Reduces rough idle and stalling
- Increase fuel economy up to 4.8% per SAE J1321
- Prevent fuel freeze ups
- Use on a regular basis to keep fuel system clean

## SPECIAL HANDLING, NOTICES OR WARNINGS

Flammable Keep away from heat and flame.

In case of eye contact, flush with water for at least 15 minutes Use in well ventilated area

HARMFUL OR FATAL IF SWALLOWED

Do not induce vomiting

Call physician immediately
